***Allowable Subject Matter***

1. Claims 1-7 allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The following independent claims 1 and 7, contain the allowable subject matter pertaining specifically to **"a Kalman gain calculating block of receiving input signals of the forward filter and the backward filter and calculating a Kalman gain"** in combination with each and every other limitation of the claims.
4. Claims 2-6 are allowed as being dependent on independent claim 1. The Kalman gain calculating block specifically receives two inputs from forward and backward filter to generate a Kalman gain. The Kalman gain would then be provided to a tap coefficient block for updating tap coefficients.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
